Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Amendment filed 5/21/2007 has been received, entered into the record, and carefully considered.

Remarks drawn to rejections of Office Action mailed 12/19/2006 include:

Double Patenting rejection: which has been overcome by applicant's filing of a terminal disclaimer.

An action on the merits of claims 17-18 and 21-41 is contained herein below. The text of those sections of Title 35, US Code which are not included in this action can be found in a prior Office action.

Terminal Disclaimer

The terminal disclaimer filed on 5/21/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,245,749 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 17-18 and 21-41 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

In the amendment filed on February 26, 2002, applicants amended claim 17 to include the phrase "a method of treating a patient infected with hepatitis B virus **and** HIV comprising" Applicants do not have support for the claims as amended. The original disclosure does not disclose methods of treating both HBV and HIV. The original disclosure is drawn to methods of treating HBV, and it appears applicants are relying on the specification, page 6 to support the methods of treating both HIV and HBV:

"In light of the fact that HBV is often found in patients who are also anti-HIV antibody or HIV-antigen positive or who have been exposed to HIV, the active anti-HBV compounds disclosed herein or their derivatives or prodrugs can be administered in the appropriate circumstance in combination or alternation with anti-HIV medications"

The fact that HBV patients also may be anti-HIV antibody or HIV-antigen positive, is not seen to clearly support the claimed methods of treating both HIV and HBV. The changing of the scope of a claim, either by broadening or narrowing, can be construed as new matter as either is capable of changing the scope of what is claimed, and the narrower or broader group must be

supported in its entirety by the specification as originally filed. As set forth supra, the original disclosure does not have support for the method as presently claimed.

It is noted that a rejection of the claims is reviewable by the Board of Patent Appeals and Interferences.
